H&C's competition time here at Geekasm and thanks to our friends over at Extreme we have one of these fantastic Clip & Rip watches from their new Ex Time range.

Ex Time's revolutionary new Clip & Rip watches are the main sharp shooters and definitive large boys of Extreme's new watch range. These dynamite little multi-tool numbers, designed to be clipped to your belt not strapped to your wrist, include a built in compass, flip out magnifying glass and an ultra bright microlight to lead the way. From our extensive experience as avid sports participants, we took inspiration from the karabiners used in rock climbing, the harnesses used in Kite Surfing and Wind Surfing. This fresh-faced design is brand new on the
